

AI answer

Try getting help without completing a support form.

Open bot

Click the bot's **refresh button** (circular arrow) in the **top-right corner** to start a new chat before this case.

- 1 Choose **English** when asked for your language.
- 2 When the bot asks how it can help, copy this question, paste it into the chat, and send it:

COPY AND PASTE

My ScanX IO View has a stuck plate inside

- 3 Wait for the answer. Read it and look for links to the Air Techniques website.
- 4 When asked "**Did this resolve your issue?**", select **Yes** to finish this case.

WHAT YOU SHOULD SEE

The bot answers your question and asks whether it helped. After you select Yes, it displays a closing message without opening the support form.

Start a form request

Try the English form when the answer does not resolve the issue.

[Open bot](#)

Click the bot's **refresh button** (circular arrow) in the **top-right corner** to start a new chat before this case.

- 1 Choose **English**. Copy this question, paste it into the chat, and send it:

COPY AND PASTE

I lost connection to my ScanX Duo

- 2 If the bot answers, select **No** when asked whether it helped. The support form should open. If it opens immediately, go to Step 3.
- 3 Keep the question in the issue box (paste it again if blank), then select **Start request**. Fill in the form with the details below, including **your own email address**.

Field	What to enter
Contact name	Your name
Contact email	Your own email address, to receive a copy
Practice name	TEST Demo Dental
Practice phone	+1 202-555-0147
Practice address	123 Demo Street, Demo City, 00000, USA
Device model	ScanX Duo
Serial number	DEMO-001
Dealer / existing case details	Leave blank if optional

- 4 Select **Continue** on each page, then **Finish form** on the device page. Review your details and select **Proceed**.
- 5 Select **Start Feedback** to type and send comments, or **End Demo** to skip feedback. Check your inbox for the submission copy.

WHAT YOU SHOULD SEE

The form opens after No, collects your details, and sends a copy to the email address you entered and to brandon.chin@airtechniques.com (This is temporary for testing reasons)

AI answer in another language

Choose the translated question from the table for the language you want to test.

[Open bot](#)

Click the bot's **refresh button** (circular arrow) in the **top-right corner** to start a new chat before this case.

- 1 In the bot, select the language you want to test: **German, Spanish, Japanese, Korean, Simplified Chinese, or Traditional Chinese.**
- 2 Choose the translated question from the table for that language. Copy only the question, paste it into the chat, and send it:

Language	Question to paste	Yes
German	In meinem ScanX IO View steckt eine Speicherplatte fest.	Ja
Spanish	Hay una placa atascada dentro de mi ScanX IO View.	Sí
Japanese	ScanX IO Viewの内部にプレートが詰まっています。	はい
Korean	제 ScanX IO View 내부에 플레이트가 끼어 있습니다.	예
Simplified Chinese	我的 ScanX IO View 内部卡住了一块影像板。	是
Traditional Chinese	我的 ScanX IO View 内部卡住了一片影像板。	是

- 3 The bot should answer in your chosen language. When it asks whether the answer helped, select the button that matches **Yes** in the same language row above.

WHAT YOU SHOULD SEE

The bot answers your question in your chosen language and asks whether it helped. After you select Yes, it displays a closing message without opening the support form.

Start a form in another language

Complete a support form in the non-English language you want to test.

[Open bot](#)

Click the bot's **refresh button** (circular arrow) in the **top-right corner** to start a new chat before this case.

- 1 In the bot, select the language you want to test: **German, Spanish, Japanese, Korean, Simplified Chinese, or Traditional Chinese**. Copy its question below, paste it into the chat, and send it:

Language	Question to paste	No	Start Feedback
German	Die Verbindung zu meinem ScanX Duo ist unterbrochen.	Nein	Feedback starten
Spanish	Perdí la conexión con mi ScanX Duo.	No	Iniciar comentarios
Japanese	ScanX Duoとの接続が切れました。	いいえ	フィードバックを開始
Korean	제 ScanX Duo와의 연결이 끊어졌습니다.	아니요	피드백 시작
Simplified Chinese	我的 ScanX Duo 连接中断了。	否	开始反馈
Traditional Chinese	我的 ScanX Duo 連線中斷了。	否	開始回饋

- 2 If the bot answers, select the button matching **No** in your language row above. The support form should open. If it opens immediately, go to Step 3.
- 3 Keep the translated question in the issue box (paste it if blank). Select the bottom button (**Start request**). Enter the details below, including **your own email address**.

Contact name: Your name	Practice address: 123 Demo Street,
Contact email: Your own email address	Demo City, 00000, USA
Practice name: TEST Demo Dental	Device model: ScanX Duo; Serial: DEMO-001
Practice phone: +1 202-555-0147	Optional case / dealer details: Leave blank

- 4 Use the bottom button on each form page (**Continue**, then **Finish form** after device details). Review the summary and select the left button (**Proceed**).
- 5 Choose the button matching **Start Feedback** in your language row to test feedback translation.

Continue with Step 6 on the next page, in the same chat.

Test feedback translation

Send feedback in your chosen language and check the English version in your email.

Continue in the same bot chat. Keep your selected language.

- 6 When the bot asks for written feedback, copy the sample for your selected language below. Paste it into the chat and send it:

Selected language	Feedback to copy and send
German	Das Formular ist einfach zu bedienen.
Spanish	El formulario es fácil de usar.
Japanese	このフォームは使いやすいです。
Korean	이 양식은 사용하기 쉽습니다.
Simplified Chinese	这个表单很容易使用。
Traditional Chinese	這個表單很容易使用。

Every sample means: **"The form is easy to use."**

- 7 Check your inbox for the submission email. Find the feedback and confirm it is in **English** with the same meaning as **"The form is easy to use."** The wording may differ.
- 8 Confirm that your issue and contact details are correct. Also check that the issue description is translated into English.

WHAT YOU SHOULD SEE

The form opens after No, collects your details, and sends a copy to the email address you entered and to brandon.chin@airtechniques.com (This is temporary for testing reasons)

The email should include the feedback in English. Compare its meaning with the sentence above to confirm that the foreign-language feedback was translated.
